Treasure Hunt Overview:

The Piggy Bank Treasure Hunt has students solving clues over a six-week period, to find the Biz Pig, hidden in a secret location on school grounds. Students solve clues related to financial literacy, and view online video clips from the Biz Kid\$ TV series, a national public TV series that teaches kids about money and business. Together, a lead educator and a credit union representative collaborate to execute this plan, by hiding the clues and the Biz Pig. The first student to successfully complete all of the steps in the treasure hunt and find the Biz Pig will be awarded a grand prize of \$250. The winning student will also select a non-profit organization to receive a \$250.00 matching donation from the credit union.

Treasure Hunt Process:

Step 1:

Every Monday morning, the lead educator will leave a large, visual Biz Pig Poster in the school's main lobby (or just outside the main office area) with a written message from the Biz Pig on it.

TIP: Attach some digital pictures taken of Biz Pig in various visually recognizable spots on campus to each poster to generate student excitement.

OPTIONAL:

If your school utilizes morning school-wide announcements, a staff member speaking as the Biz Pig can also read each week's new clue over the PA system every Monday.

Sample Poster:

Step 2:

The written clue on each individual Biz Pig Poster will lead students to a small Biz Pig Stamp that has been prepared and hidden ahead of time by the lead educator and the credit union representative. (EX: "I'm Thirsty" clue relates to a drinking fountain location)

Each stamp-sized square will contain a pre-selected teacher's name and a password related to a specific Biz Kid\$ episode. (NOTE: The teacher names and passwords are customizable in the template provided.)

Sample Stamp:

Step 3:

When students find the Biz Pig Stamp related to the Biz Pig Poster, they are not allowed to remove the stamp from its original location. Removing the Biz Pig Stamp is against the rules and may cause grounds for student disqualification.

After finding the stamp, the students must verbally deliver the password to the teacher whose name was provided on the Biz Pig Stamp.

NOTE: The lead educator and the staff must set the ground rules for permitted timeframes for student delivery of the passwords to participating teachers.

EX: 15 minutes before start of school, 30 minutes after school, etc.

Once the correct password has been successfully delivered by a student, the teacher will provide the student with a Biz Kid\$ worksheet and assignment.

TIP: A stack of worksheets can be copied ahead of time and kept in an accessible location in the teacher's classroom for easy distribution.

Step 4:

The students must complete the Biz Kid\$ worksheet provided. In order to successfully complete the worksheet and corresponding activity, students will need a computer with Internet access.

NOTE: The lead educator and the staff must determine and set the ground rules for permitted timeframes that allow students to utilize school computers to view selected media clips on-line at: www.bizkids.com

EX: 15 minutes before start of school, 30 minutes after school, during study-hall periods, during lunch periods, etc.

Students may also complete the worksheets and extension activities on-line at home.

Step 5:

The teacher will collect the worksheets and activities completed by the students. Worksheet answers must be verified by each teacher. (Teacher answer keys are provided.)

Sample Worksheet:

The worksheet is titled "piggy bank hunt" and "Episode 1.0: Budgeting Basics". It contains several questions and answers related to budgeting. The questions are: 1) What was the title budget for the Biz Kid\$ music project? Answer: Biz Kid\$ music project. 2) How much money was actually spent completing the project? Answer: \$100. 3) How much profit was made? Answer: \$20. 4) Why were the images on the CD printed in black and white instead of in color? Answer: Because the budget was only \$100. 5) How much money did Jason spend preparing and entering his car for the derby? Answer: \$50. 6) Why did Jason end up driving his friend's truck instead of his car (BANK)? He said "There are some things you just can't budget for!" Answer: Because the budget was only \$100. 7) How much money did Milan budget for her weekly lunch money? Answer: \$10. 8) When Milan goes over budget, what item is she encouraged to return? Answer: Her lunch money.

The teacher will sign each student's Biz Pig Passport and hand out a mini version of the next Biz Pig Poster in advance, allowing students who have successfully completed each worksheet the chance to continue searching for the next password and Biz Kid\$ worksheet.
